Information Disclosure Statement

Although a Notice of Allowance was nailed on August 05, 2,009, however, an IDS was recorded on August 04, 2,009 and hence, it was considered. While the Examiner now considers and initials US 20040073451A1, US 5634012A and US 7120604B2, listed on the IDS form, the Japanese references were crossed off or not considered. First, only two English translations related to two Japanese documents were provided, whereas the other two references were in Japanese and no English translation of at least the corresponding abstracts was submitted. Second, the Japanese Patent issued an Office Action in which possible relevant portions or sections were explicitly cited and the Japanese translated abstracts do not contain such cited portions and thus, the submitted abstracts were not considered. To be relevant here, the Japanese references must contain the sections cited in the Japanese Office Action in addition to the translated abstracts.
